MaxAir – Holidays Function

MaxAir provides an 'Holidays' option, which allows the definition of a schedule which will override the 'normal' schedules between a start date/time and an end date/time.

Holidays mode is configured by clicking on the 'Holidays' button on the 'Home/One Touch' screen.

While a holiday schedule is active the status indicator will change from blue to red.

Click on the + icon to create a new 'Holiday Period'.

Enable and set the Depart and Return Date/Time values, then click on the 'Submit' button.

Click on the Timer icon to create a schedule in the usual Manner.

ⓛ Add Schedule
📄 19:05

☑ Enable Schedule   ☐ Enable Away Schedule

☑ Sun   ☑ Mon   ☑ Tue   ☑ Wed

☑ Thu   ☑ Fri   ☑ Sat   [Toggle Days]
